

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 2

Student Name: __Janet Dankwah

Nortey_____

Student ID: _____23112028_____

GitHub Repository Link: _____

Date Submitted: _____29/07/26_____

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	yes
Estimated percentage of the work influenced by AI	15%
Did you attach evidence of AI use where applicable?	yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ChatGPT				
	To understand neural network concepts, backpropagation, and activation functions, and to identify and fix coding mistakes	"Explain the neural network code line by line.", "Check if my implementation is correct" "Help me fix the backpropagation and learning rate experiments"	Understanding the lab, debugging the NumPy neural network implementation, and correcting the backpropagation equations.	I compared the suggestions with the lab instructions, corrected the code myself, tested the program, and confirmed that the loss curves and predictions behaved as expected.

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft		
Prompt history	yes	Here are prompts that accurately reflect what you asked me during t • "Teach me the neural network terms used in the lab." • "Explain this code line by line." • "Is my implementation correct?" • "What mistakes are in my code?" • "How do I fix the backpropagation step?" • "Explain the derivative of the <code>tanh</code> activation function." • "Check if my learning rate experiment is correct." • "Explain the difference between using <code>tanh</code> and no activation fu If you want to put it in one concise entry in the form, you can write: "Teach me the neural network concepts used in the lab, explain check whether my implementation is correct, identify mistakes backpropagation code, and explain how to fix them."

Exported AI conversation		
AI-generated code snippet		
Revised version showing student input		

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	yes
Any use of AI tools has been clearly declared in this form.	yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	yes
My AI usage does not exceed 25% of the entire work.	yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	yes
